Unmatched Performance and Reliability

Recognized for its unmatched performance, reliability, and compatibility with all new and legacy games, the Epic 950 ticket-in/ticket-out (TITO) printer is installed in more than 500,000 slot machines worldwide.

The Epic 950 printer also helps increase customer loyalty and casino revenue when used with TransAct's Epicentral[™] software. Epicentral enables you to reward players while they are playing, by printing personalized promotional coupons right from the slot machine, following rules you set.

Printer and power supply

Dimensions:
6.48W x 13.34D x 5.20H (inches)
164.59W x 338.84D x 132.08H (mm)

Under Table Enclosure

Includes:
Printer and power supply

Dimensions:
6.04W x 14D x 4.47H (inches)
153.4W x 355.6D x 113.54H (mm)

BENEFITS

- Easily integrated: one printer for all game types - approved for new and legacy games
- Proven to be ultra-reliable – less than .03% experience any sort of failure (3 per 10,000)
- TicketBurst™ jam-free technology prints and bursts each gaming ticket before presenting the ticket, to eliminate player interference and ensure maximum up time.
- Robust memory capacity for graphics, fonts and international character sets.
- Prints personalized, promotional coupons, in real time, when used with TransAct's Epicentral® software.
- Accommodates 200, 600 and 800 count ticket stacks – paper prints down to the last ticket in the stack
- imPort™ – Facilitates rapid, simple and secure firmware flash downloads with easy Test Ticket confirmation
- Multiple, easy to see indicator lights: ready, paper, open and fault
- Truly Hot Swappable – Quick Disconnect Technology allows you to easily remove and install printers from slot machines without powering down the game or detaching cables.
- Rugged metal inner and outer chassis provides robust dual grounding design. Form factor enables the 950 to replace less reliable TITO printers in existing slot machines.
